WAYLITE

TRULY LIGHT

WAYLITE, *walk with maximum lightness, breathability and grip.*

Description

WAYLITE, this occupational clog is entirely made of polymeric materials and has the following components:

- Antistatic insert;
- Strap;
- Ventilation holes.

Users

WAYLITE, is ideal for uses where prolonged standing or walking may tend to induce foot discomfort or lower body fatigue, especially to be used in:

- **Hospitals and Other Healthcare Institutions**
- **Cosmetic and Beauty Companies**
- **Cleaning Companies**
- **Geriatrics and Physiotherapists**

Specifications

Super Light
Feelite™ technology produces remarkably light, resistant and comfortable footwear.

Shock Absorption
The special design helps to reduce the occurrence of micro–lesions in tendons, bones and joints, and the feeling of tired legs.

Antistatic
Promotes the dissipation of accumulated static electricity.

Breathable
Regulates the temperature and humidity of the foot.

Upper Liquid Protection
Avoids the entrance of liquids inside the shoe.

Washable
The footwear can be machine washed up to 50 °C.

Antislip
The sole is designed to reduce the risk of slipping.

Materials and Technologies

WAYLITE is made with **Feelite™** technology. This technology is super lightweight and provides odor resistance, inhibits proliferation of bacteria and is non–toxic.

Technical Standard

CE
Regulation 2016/425

EN ISO 20347:2021/AMD.1:2024
OB A E SR

Care and Cleaning

Wash: Machine washable up to a maximum temperature of 50 °C.
Dry: Wipe with a cloth or dry at room temperature.

Attention

WAYLITE resists several washings at 50 °C in washing machine. It is not recommended the use of bleaching agents during washing machine cycles at 50 °C.
To keep your shoes new and beautiful for much longer, it is essential to follow some recommendations: Avoid getting your shoes wet, but in case this occurs, never place them in the sun. Let them dry in the shade and also away from any other source of heat, because heat damages the materials, the colour and the texture. A soft cloth is the main ally of this type of shoe and its cleaning should be done weekly or whenever necessary.
